VIIISA 2023

STARTUP FUNDING, SELECTION & EVENT OUTCOMES REPORT

Vignan's Innovation, Ignition & Incubation for Startup Acceleration

210	30	7
Applications received	Startups shortlisted	Startups selected for funding

1. Programme Overview

VIIISA (Vignan's Innovation, Ignition & Incubation for Startup Acceleration) is a startup-support initiative of the Vignan Technology Business Incubator (VFSTR TBI Council), supported by the Department of Science and Technology (DST). The programme identifies promising startups and connects them with evaluation, incubation support, ignition funding, product-development guidance and market access.

The 2023 cycle followed a structured two-stage process: a first-round screening of applications, followed by a second-round pitching event before an expert panel and institutional leadership. The process enabled a transparent review of applications, the shortlisting of ventures for detailed pitching and the final selection of startups for funding.

2. Selection Process at a Glance

Stage	Date	Description
First round	6 November 2023	210 startup applications received from across India; reviewed by the PI, CEO and expert professors from relevant departments.
Second round	8 December 2023	30 shortlisted startups pitched in the Chairman's Board Room at VFSTR, Vadlamudi, Guntur.
Final selection	Following the second round	Seven startups identified as the final funded startups under VIIISA.

3. Purpose and Evaluation Focus

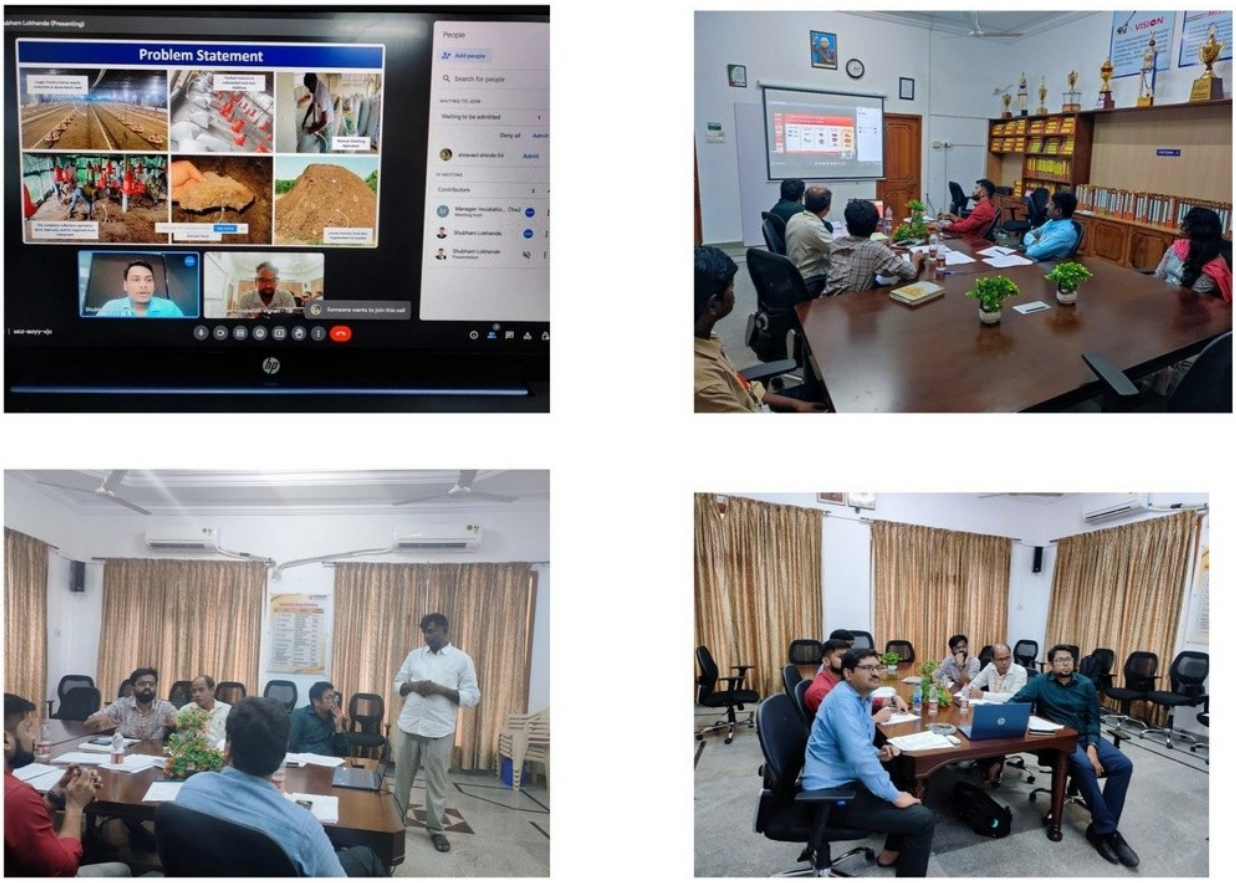

The selection process was designed to identify ventures with strong ideas, product or service potential and business viability, whose needs could be met through incubation and startup-funding mechanisms. The pitching round gave founders the opportunity to present their ventures, outline their market and business potential, and discuss their support requirements with institutional leadership and expert evaluators.

4. First-Round Selection Process

Date: 6 November 2023 **Activity:** Screening and evaluation of VIIISA startup applications

The Principal Investigator (PI), the Chief Executive Officer (CEO) and professors from relevant academic departments reviewed the applications received from across India. Based on this evaluation, 30 startups were shortlisted for the second-round pitching event.

Date : 06-Nov-2023 : VIIISA 2023 - First Round Selection Process

Photographic record of the first-round selection process, 6 November 2023

First-Round Outcome

- 210 applications were received from startups across India.
- Applications were reviewed by the PI, CEO and relevant departmental experts.
- 30 startups were shortlisted for the pitching stage.
- Shortlisted founders progressed to the second-round evaluation on 8 December 2023.

5. Second-Round Pitching Event

Date: 8 December 2023 **Venue:** Chairman's Board Room, Vignan's Foundation for Science, Technology and Research (VFSTR), Vadlamudi, Guntur, Andhra Pradesh

The second-round event brought the 30 shortlisted startups before an evaluation panel and institutional leadership. Founders presented their ventures and discussed their business potential and support requirements, creating a formal setting for reviewing startup concepts, exchanging feedback and considering the support needed for future development.

Date :08-12-23 VIIISA SECOND ROUND-2023

7. Institutional Leadership and Participant Engagement

The event was attended by Chairman Dr. Lavu Rathaiah, the Vice-Chancellor, the Registrar, the Principal Investigator (PI), the CEO and professors from relevant academic departments. Their presence reflected the University's strong institutional commitment to the review and selection of startups. The second-round programme also brought together invited investors, venture-capital representatives, startup founders and special invitees from the wider innovation ecosystem.

Thirty shortlisted startups presented their ventures in a formal university setting. The event enabled founders to communicate their business propositions, discuss their development and support needs, and engage directly with evaluators and ecosystem representatives. Individual attendance records for the startup participants were not available; this report therefore documents the total number of shortlisted startups.

8. Final Phase Selection – Seven Startups Selected for Funding

At the conclusion of the final phase of the VIIISA selection process, the following seven startups were selected for funding. This list is distinct from the full group of 30 startups shortlisted for second-round pitching.

S. No.	Startup Name
1	**DessinRx Health Care Private Limited**
2	**Amritattava Nutrition Private Limited**
3	**EXSURE Private Limited**
4	**Tech Atriocare Private Limited**
5	**SamparkBindhu Solutions Private Limited**
6	**Teampower Infrastructure Indian Pvt Ltd**
7	**Jesvid Cryo Technologies Pvt Ltd**

9. Key Outcomes and Programme Impact

- **National reach:** 210 startup applications were received from across India.
- **Expert-led screening:** the PI, CEO and departmental experts reviewed applications and shortlisted 30 ventures.
- **Pitching opportunity:** 30 shortlisted startups presented their ventures in the second round.
- **Final funding selection:** seven startups were selected for funding under VIIISA.
- **Ecosystem engagement:** investors, venture-capital representatives, institutional leaders and academic experts participated in the programme.
- **Follow-up pathway:** the selection provides a foundation for tracking funding disbursement, mentoring, product-development milestones and market-access support.

10. Conclusion

VIIISA 2023 followed a staged selection process, progressing from nationwide applications to expert screening, second-round pitching and final funding selection. From 210 applications, 30 startups were shortlisted for pitching and seven were selected for funding. The first-round review on 6 November 2023 and the second-round pitching event on 8 December 2023 were the key milestones of this process.

Note: *The available records do not include a complete funding-distribution schedule or the total amount disbursed under VIIISA. The cheque documented in Section 11 is included as a specific photographed record; no amounts are inferred for the other selected startups.*

11. Final Funding Distribution & Ceremony

The funding-distribution ceremony was documented photographically. One photograph records a cheque presented to Jesvid Cryo Technologies Private Limited, dated 23 March 2024, for ₹3,50,000. This is the amount visible on that cheque and should be read as the documented distribution shown in the image; it is not a statement of total programme funding or of the amounts received by the other selected startups.
